

Tailoring Research and inclusion Strategies for vulnerable migrant contexts

*The RAISD co-expert and
actor-oriented approach*

International conference

17th - 18th May

Palermo, Italy

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 822688

Raniero Chelli

UNIMED — Mediterranean Universities Union.

Action-Research Units,
Quintuple Helix
Representation. Importance of
Collaboration between local
inclusion actors and actions.

Participants in the panel discussion

- Universidad Complutense de Madrid: Ms. Noelia García Castillo
- Helsinki University: Ms Martta Myllylä
- Menedék: Ms Bernadette Daragics
- Anadolu University: Mr Nezh Orhon
- Yarmouk University: Dr. Amani Shatnawi
- Lebanese International University: Dr Anwar Kawtharani
- CESIE: Cloè Saint-Nom

What is an ARU?

The acronym stands for Action Research Unit.

An ARU is a group of stakeholders, coordinated by one of the RAISD partners

The Missions & Actions of ARUs

1. Contribute to the research design providing feedback;
2. Contribute to the data collection;
3. Selection, adaptation, implementation and evaluation of TAISS;
4. Define Roadmap for TAISS definition and implementation;
5. Contribute to set up and test the TAISS for their Vulnerable Contexts and provide relevant feedback.

How did they fulfil their mission?

- Applying Participatory Approach and Responsible Research and Innovation to the selection and design of TAIS
- Implementing and testing the TAIS in three rounds of Pilots
- Evaluating the results
- Each ARU has then implemented other local activities especially in view of the sustainability of the project

Focus of this panel

To investigate the extent to which the project has contributed to

- Promote local collaboration among stakeholders in supporting Vulnerable groups
- Implementing the Quintuple Helix methodology
- Prepare the future sustainability of the action

Questions for Panelists

1. Did you encounter any difficulties in engaging local inclusion actors and stakeholders in the work for ARUs and in implementing the TAIS? If yes, which ones and how did you deal with these?
2. Do you think that the RAISD project managed to promote new ways of collaboration between local inclusion actors? If not, why? If yes, which ones?
3. How do you see the future sustainability of the collaboration between local inclusion actors after the end of the project? Which factors could facilitate the continuation of the RAISD Work?
4. Should you have the opportunity to implement new TAIS, how would you improve the design and implementation processes?
5. To what extent do you think that the components of the Quintuple Helix as a whole have been involved in the RAISD project? Which component was the less represented and what could be done to improve the situation?
